#### API / API Tech:

REST, Swagger, GraphQL

#### Collaboration & Productivity:

Jira, Confluence, ChatGPT, Google Workspace, MS365, Figma, Lucidchart, Grafana

#### Databases/Cache:

MySQL, PostgreSQL, MongoDB, DynamoDB, Redis, Memcache

## Experience

### IT Consultant (Technical Product Manager)

Jul 2023 – Present

Pragya Consulting Services | Brussels, Belgium

On-site from Jul 2024 – led product development initiatives using Agile methodologies and tools like Jira and Confluence. Provided strategic direction and mentorship to the team, ensuring alignment with product goals while addressing both technical and operational challenges. Played a key role in product strategy and architecture discussions, focusing on delivering high-value features and refining product roadmaps.

- Increased team productivity by 50% and accelerated delivery timelines by 20% through strategic leadership and optimized Agile practices.
- Successfully managed a cross-functional team of 6 engineers, delivering products on time and within budget, significantly enhancing client satisfaction.
- Engaged closely with stakeholders to define product requirements, prioritize features, and ensure successful implementation aligned with business objectives.

### Technical Product Manager

Aug 2017 – Jun 2023

Trilogy Enterprises | Austin, Texas (Remote)

Led cost-saving initiatives, managing the architecture and development of CloudFix, and optimizing delivery processes. Co-managed Technical Product Managers and developed AWS-based tools for key technical processes. Authored software specifications, technical teardowns, and competitive comparisons for 100+ products.

- Achieved \$15M savings in 3 months by developing CloudFix, leading to over \$100M in cumulative savings for customers.
- Streamlined product development with lean processes, enabling 24/7 operations for a global workforce of 5K+.
- Co-managed 60+ TPMs, aligning with executive goals and preparing for a VP role.
- Developed internal tools for product strategy, using AWS, reducing operational overhead by 75%.

### **Lead Software Engineer**

Jan 2015 – Aug 2017

*Trilogy Enterprises | Austin, Texas (Remote)*

Centralized IT operations, managed senior SREs, automated processes, contributed to tools architecture and development, and handled M&A activities

- Centralized IT operations for a global workforce of 5K+, achieving 85% cost savings.
- Coached and managed 20+ senior SREs, enhancing their productivity by 4x.
- Authored M&A IT transition playbooks, integrating over 15 acquisitions.
- Implemented JIRA workflows and advanced automation, reducing operational overhead by 75%.
- Contributed to the development of VDI2, a web app for deploying AWS services with an audit trail, preceding AWS's comprehensive IAM and compliance features.

### **Technical Co-founder**

Oct 2013 – Dec 2015

*Tissow Technology Ventures | Chennai, India*

Architected and developed Humingo, replatformed Ticketgoose, and optimized tech operations by switching cloud providers.

- Built Humingo, an e-commerce product discovery and aggregation platform, comprising a distributed crawler and product classifier, in 6 months using Cloudera Hadoop, Apache Solr, Lucene, HDFS, Zookeeper, and Kafka.
- Modernized Ticketgoose, a bus ticket booking platform, reducing operational complexity and improving user experience in 3 months using Spring framework.
- Reducing TCO by 50% by switching from AWS to Linode, and later moving back to AWS after the introduction of GP2 volumes.

### **Senior Associate**

Dec 2011 – Oct 2013

*Nallan Technology Ventures | Chennai, India*

Architected and built Kachyng, a PCI-compliant mobile payments platform.

- Implemented single-click checkout, enhancing UX by reducing transaction time by 50%.
- Led the PCI compliance initiative, implementing encryption, tokenization, and rigorous security protocols to meet stringent security standards, successfully passing all compliance audits.

### **Technical Co-founder**

Aug 2010 – Dec 2011

*EMRG Software Solutions | Chennai, India*

Led a 10-member team, architected, and developed 2 products in the financial information research space.

### **Systems Engineer & Java Application Developer**

Aug 2008 – Aug 2010

*YuMe | Chennai, India*

Managed infrastructure and automated deployments across 6 environments, overseeing production deployments, migrations, and daily DevOps tasks. Conducted R&D in early mobile technologies, developed native apps, and created proof-of-concepts using Google Web Toolkit.

## **Education**

### **B.Sc Computer Science**

2008

*Bharathidasan University | Trichy, India*
